Table 1 Recycle Codes
R - The item contains post-consumer recycled content ¹ or if the item is a toner cartridge, it can be remanufactured to qualify as "R."
¹ Material from products that were used by consumers and would otherwise be discarded as waste. These materials are recovered through consumer recycling, and include items such as newspapers, cardboard, aluminum, glass, and plastics.
B - The item is a biobased ² product.
² Biobased products are derived from plants and other renewable agricultural, marine, and forestry materials and provide an alternative to conventional petroleum derived products. Biobased products include diverse categories such as lubricants, cleaning products, inks, fertilizers, and bioplastics. For purposes of the Bio Preferred program, biobased products do not include food, animal feed, or fuel.
V - The item contains only virgin materials.
NULL - The item is an EPEAT-reportable item.

Other optional fields may be included after the first eight if your company has additional information you wish to promote or share. **Possible optional fields:**
